## THE END

I really don't know much about Haiku beyond the junior high school format I learned about that dictates using a 5-7-5 syllable structure.

Then there was this great book I found at a Border's Book Store called *Japanese Death Poems*. I remember something about folks writing Haiku on their death beds. Others mostly wrote contemplations about nature.

My collection is just a handful of the Haiku, Tanka, and Prose that I have been scribbling around for the past 7 years. If I were to include all of them, this volume would be a bit too much I think.

I didn't bother to sort them out neatly into categories, so understand that the more questionable verses are simply my creative imagination driven by painful emotion.

I do hope that you might find inspiration of some kind, or at least have your spirit stirred a bit while reading.

Now let's begin with the end.

## End This Dangerous Game

Breathe In Hot Vapors  
In A State Of Near UnDress  
SunStorm Flowers Black

On Dark Sheets She Sleeps  
These Glimpses Of Her Body  
Just Out Of My Reach

On Those Other Worlds  
The Worst Winter Is Passing  
Through Caves Of This Heart

Inspired Books Are Filled  
For The Joy It Is To Trace  
The Lines Of Your Face

I Call Out To Death  
For This Heart Can Feel No Pain  
If It Beats No More

I'm Stepping Out Into The Cold; WithOut You

December 2013

I heard his sad song  
But I would do anything  
For your hot embrace

With these Royal Eyes  
Trembling in awe before you  
Just to sing your name

I can die complete  
For we embraced through the night  
A dream fulfilled

For your greatest joy  
I will do anything now  
To witness your smiles

Unconditional  
No matter what you may do  
Love will always reign

I'll wait forever  
If it means dying alone  
For a chance with you

2013

Embracing the Sun  
Today is pretty and warm  
Reminds me of you

Always in trouble  
I've never been a victim  
I'm just a rebel

Waking up again  
Sweating in the freezing cold  
Starting a new day

Ready to erupt  
Like a raging volcano  
My questions ignored

The chain is broken  
No longer anchored to her  
As I sail away

What I thought was love  
Proves to be a trance of lies  
A spell I've broken

2013

A soul scorched in flames  
The inferno of her heart  
Burning trust to ash

Love blows me away  
A natural disaster  
The best kind of storms

No more good-bye songs  
There shall only be echoes  
Of my beating heart

This man is dying  
He echoes into silence  
Fades away from her

Were you as pretty  
As my breakfast I would just  
Eat you all up too

Astral blooming clouds  
Delightful Angel-Flower  
On the horizon

2013

2013

Suicide retreat

Splattered, crimson, life-force stars

Fall upon the snow

When you shut me out  
I die alone in the snow  
Walking without clothes

Princess in hiding  
Feed my flesh to the scarabs  
In my Royal Tomb

Sharing your vision  
I love the colors you see  
Red, black, and midnight

I am a shadow  
For you and my Heart are one  
Shining like the Sun

Today is so hard  
I just feel like giving up  
But instead I rise

2013

UnEarthly Goddess  
Punishes me with silence  
UnObtainable

So much more I wish  
Yet I just accept my place  
Your dying shadow

Most lovely Dream-Girl  
Walking with you every day  
Holding hands, and smiles

Paradoxical  
Today the Globe is *not* warm  
It is very cold

Always on my mind  
A thought of you warms my heart  
In this horrid cold

Your loss suffered by  
The most severe of beatings  
My merciless strikes

2013

You said you would call  
Too bad I believed you would  
Because you did not

Cast into shadows  
By my own fears and self doubt  
Please show me the light

Insomniac dream  
Whether dead or awake  
My SOUL she does take

Blasting "War Machine"  
As The ChimpZ destroy the stage  
Never giving up

Haiku poems have  
Five syllables, then seven  
And five once again

It's not beneath me  
To get on my knees for her  
And beg forgiveness

2013

My heart is on fire  
Soon to explode from my chest  
I'm bleeding to death

Wounds self inflicted  
Who can sleep with all this pain  
Oh, I'm bleeding rain

Aiyana Cadwell  
Singing away these long days  
In Eternal Bloom

Not only my heart  
My SOUL is also burning  
WithOut her is HELL

For just a moment  
I wandered into madness  
Chasing dreams away

Poetic hauntings  
And sexual images  
Continue in verse

2013

2013

Mordekai escaped  
Why did I unleash this beast  
Out into the world?

Before I did not  
Now I know where I'm going  
On the road again

Make-up from within  
Not cosmetics from outside  
The beauty of health

Demonic Angel  
Cast into my HEART and SOUL  
She's all dressed in black

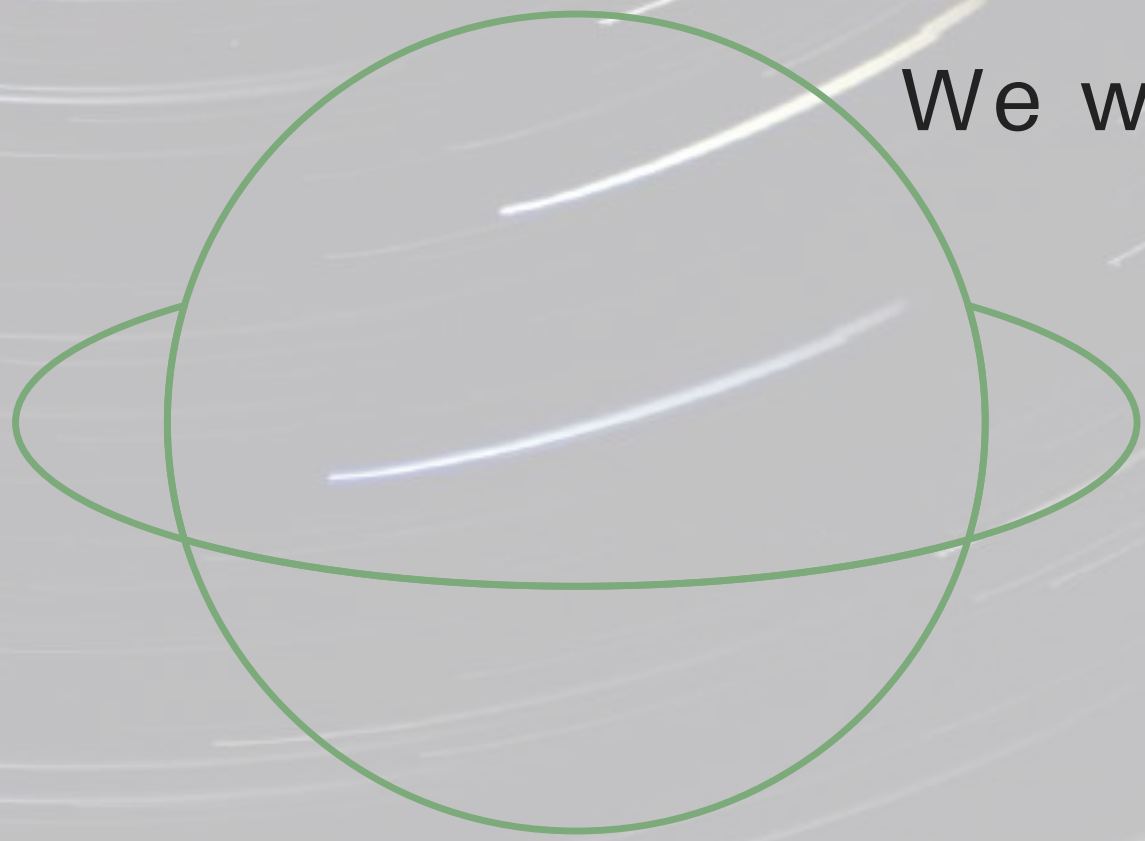

You may be down now  
But whatever your dreams are  
You can achieve them

Finally let go  
With LOVE unconditional  
Now free to move on

2013

Diminished seven times  
Dropped to the lowest state by  
The demons of CAST

There's no escaping  
I will see you tomorrow  
We will work this out

Out of the school now  
Off to the mortuary  
To bury our dead

Take your mind off DEATH  
From the morgue OnTo the stage  
The Iron Maidens

She said she missed me  
So I went back to see her  
Now she has no time

Once I had returned  
Two days held in an Angel's wings  
Then She flew away

2013

Beautiful Christine  
Glides a bow across the strings  
Perfect melodies

Eternal sadness  
My life has been full of tears  
Since I was first born

In the darkest times  
No matter how low I get  
There is always hope

You are wonderful  
May your day be that way  
With much great success

When destroying them  
Sometimes hatred and anger  
Are just what I need

Suicidal girl  
Don't think you are fooling me  
While killing yourself

2013

Revenge is so sweet  
An UnBelievable end  
Will soon come to you

Bleeding a whole lot  
I have finally lost it  
Hope and sanity

Their twisted pleasure  
Bathing in my tears and blood  
Carving out new wounds

The ride is over  
A broken roller coaster  
Falling off the tracks

Decaying remains  
When all has come to ruin  
Eternity falls

Here's the ugly truth  
The love has turned to madness  
For it never was

2013

Dying all alone  
For when I needed you most  
You were just not there

With this final breath  
I shall pass on my sorrows  
In the end of me

I don't need heroes  
No one can save me but I  
And I don't want to

Just wake up and live  
Each new day is wonderful  
You make it that way

Success takes hard work  
And it may take all you have  
But just keep going

The same as before  
Why did I ever return?  
Just to be shut out?

2013

All this present pain  
She's best in the memories  
Of my shadow graves

Whole worlds fall apart  
As I crumble at her feet  
Buried underneath

Good-bye Shadow Flame  
Because I'm nothing to you  
I will just burn out

A passion so vex  
I crave your love and your sex  
And bow to your hex

Hell is her absence  
I'm both ends of the candle  
A soul burned alive

Aiming for the skies  
Flying through the daze and Knights  
Let your spirits rise

2013

You will bleed and cry  
Fighting because it's worth it  
To live in your dreams

Will I ever learn?  
EveryOne else gets her turn  
While I bleed and burn

Broke my own heart chains  
She has lost her hold on me  
I'm finally free

I exclaim boldly  
I am only the lonely  
She is a phony

2013

Smile and thank the day  
Wake up and embrace the world  
Give your heart to love

Mend your broken heart  
Create something beautiful  
Give it all away

Open up your eyes  
So much beauty surrounds you  
Just as within you

Wipe away your tears  
Why should you cry forever  
When there is laughter?

Take your power back  
Forgive who tries to hurt you  
And create success

Opening your heart  
Walk into fields of wonder  
Be the joys of life

2013

Wash the pain away  
Fly InTo LOVE every day  
Spread your wings and play

Weak minds betray you  
Success is your best revenge  
Be better today

We sing many songs  
Let them be celebrations  
Of grateful rejoice

We Are All In LOVE  
With the Sun, Sky, And Wind To  
Every Drop Of Rain

Look in the mirror  
Unmistakably in LOVE  
Embracing Yourself

Know That You Are GODS  
There Is A Magical Kingdom  
Deep Inside Us All

I'm tasting again  
Many flavors of romance  
In a life so sweet

Your joy is right now  
See the beauty in all things  
To purge sorrows

The sky is falling  
Look up and race to catch it  
The wings of our heart

2013

Dear Magnolia,  
Your enchanting blossom swings  
Gently, windy sings

January 2014

In this joyful life  
I see the Golden Bridges  
Where we cross our hearts

I'm in love right now  
Just as I have always been  
And will always be

My dearest Christine,  
Never have I longed for one  
As much so for you

Cyanide Sugar  
So sweet and deadly a mix  
Like joining two souls

The fault is my own  
I admit that I was wrong  
I can make it right

Siren so lovely  
Keep singing that special song  
Bitter harmonies

January 2014

Bergamot Station

I sat intoxicated

When the Belle first rang

Healing depression

Though I just feel like dying

I keep getting up

Among The Tall Grass

I Walk With The Wind And The Sun

Living harmony

I Am The White Crow

Standing Out In The Darkness

I Am The Black Sheep

Sweetest melody

My favorite song is laughter

Coming from your glee

I stole a deep breath

When my grief was choking me

And came back to life

January 2014

She looks from the stage  
Dressed in black with violin  
Loving through the strings (01.07)

Through jasmine bridges  
Frosty blossoms chase the knight  
Darkness and delight

Deadly love embrace  
We live life under MoonLight  
Fire in the mirror

An object in light  
Casts a shadow of darkness  
On the brightest days

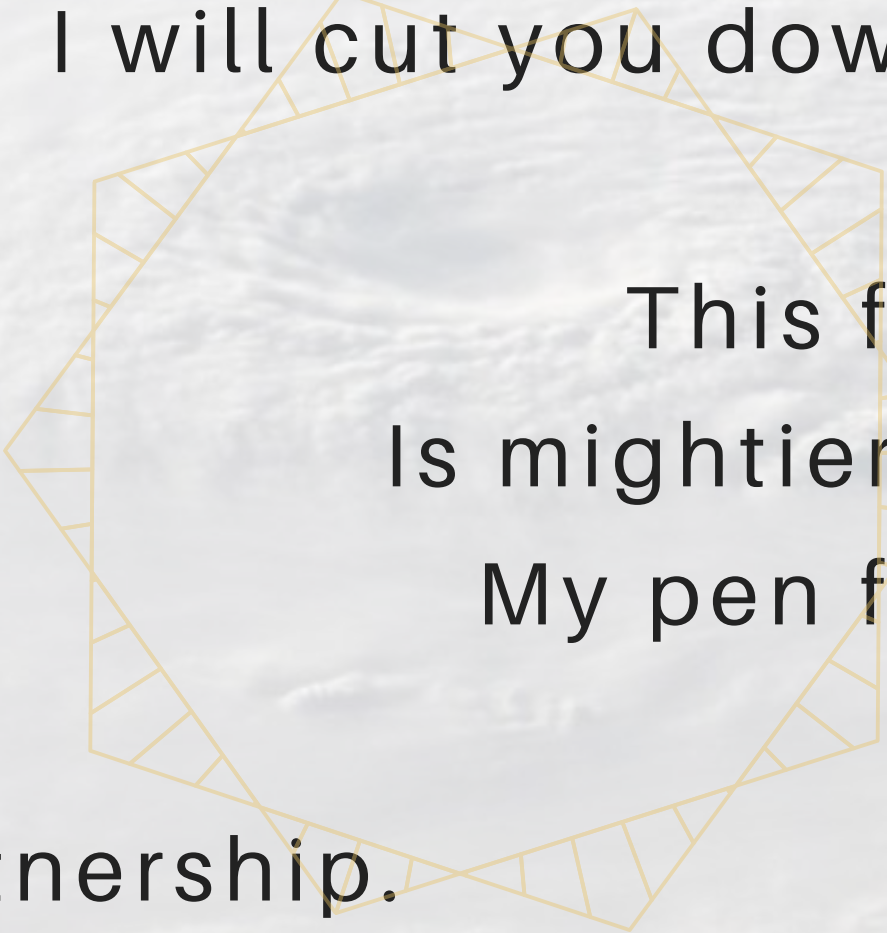

What I must do now  
To love you as you deserve  
Is to be my best

On a patch of grass  
Dandelion in the park  
During midnight walks

January 2014

You went back to him  
Thanks for cutting out my heart  
I know where I stand

Kindness is power  
You mistook it for weakness  
I will cut you down

This fountain of truth  
Is mightier than the sword  
My pen filled with blood

The Self. Partnership.  
Signals, Separation, Strength.  
Initiation. (Runemal)

No one really cheered  
I never knew music would  
Bring down the Death Star

All throughout those nights  
We held each other so close  
I still feel her near

January 2014

You lost your color  
My tears washed it all away  
Hopeless serenades

Survival of fears  
Does the greatest work for the  
Revival of tears

Through life challenges  
No matter how tortuous  
You can overcome

Since you're dead to me  
You may as well kill yourself  
Black Widow Spider

I would die for you  
Only it is best for me  
To live without you

Trampled under foot  
Heart, soul, and insides splattered  
Crushed like an insect

2014

January 2014

From a whispered rage  
Fade the elements of pain  
As the morning dawns

Yesterday Was Death  
Today A New Life Begins  
Better Than Before

Schizophrenia  
Escaped from psychiatrists  
But not from myself

On the cross, your heart  
My nine inch nail in your love  
Crucifying you

Remind yourself now  
That you can do whatever  
Truly brings you joy

In your life today  
Something truly wonderful  
Is happening now

## Life After Laughter

January 2014

Through a dreaming land  
I walked in a world of death  
Living once again

A spirit alive  
In the flesh and through the soul  
Heaven evermore

To define oneself  
What is within surrounds us  
Earth is our garden

Forever alive  
When we walk in the shadows  
Surrounded by light

You deserve heaven  
Without dying to get there  
But by living now

I have seen hell  
For some reason I came back  
To be here again

January 2014

All we troubled souls  
Believe we are alive  
While in a deep sleep

I have seen real ghosts  
Dwelling a straight line of time  
Haunting each other

We should come to know  
There is no "Valley of Death"  
Except in our minds

Nightmare succubus  
Love-Making DEMON in flames  
You are my wet dreams

Such delicious fruit  
She tastes like watermelons  
Melting in my mouth

I saw the real life  
When swallowed by the ocean  
Awakened by death

January 2014

Influence the world  
Even the whole universe  
With your beliefs

Focused on the goals  
Aiming high while detaching  
Balance and success

Destroying limits  
With an eternal vision  
To uplift us all

February 2014

Persisting in faith  
Throughout those times of trouble  
Always builds our strengths

The only promise  
That can ever be made sure  
Is to love always

January 2014

## **Whisper In Hell**

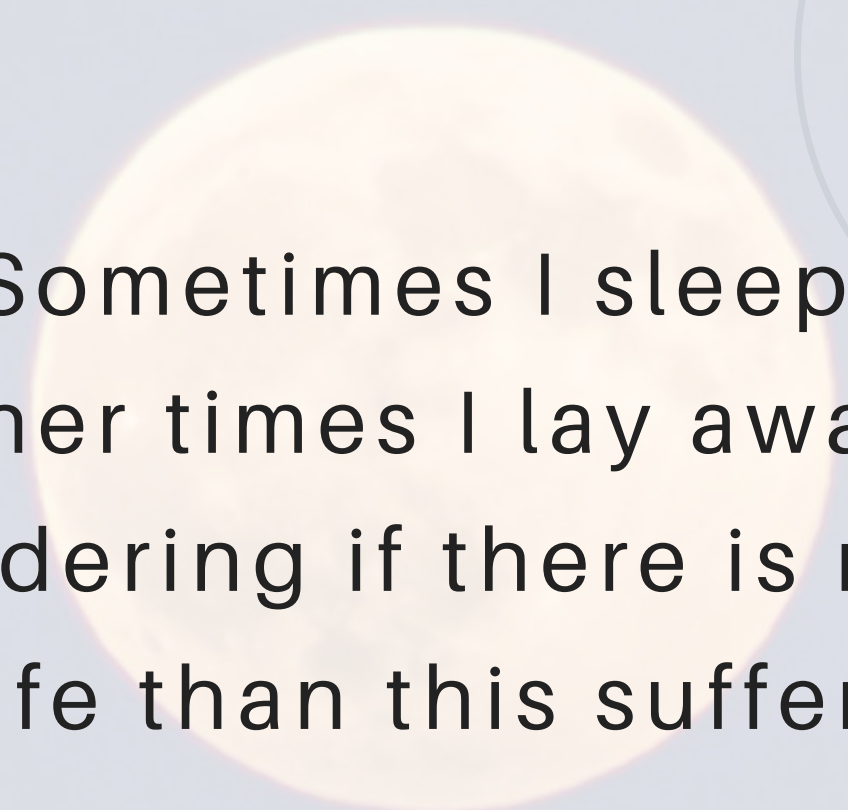

If I could whisper  
I'd whisper in hell  
I'd kill all the rainbows  
As the sky fell

Into the Sunlight  
The Fire that burns  
Eternal Infernal  
There are no returns

I mock all the angels  
And snap all their wings  
I destroy the harmonies  
The cherubim sings

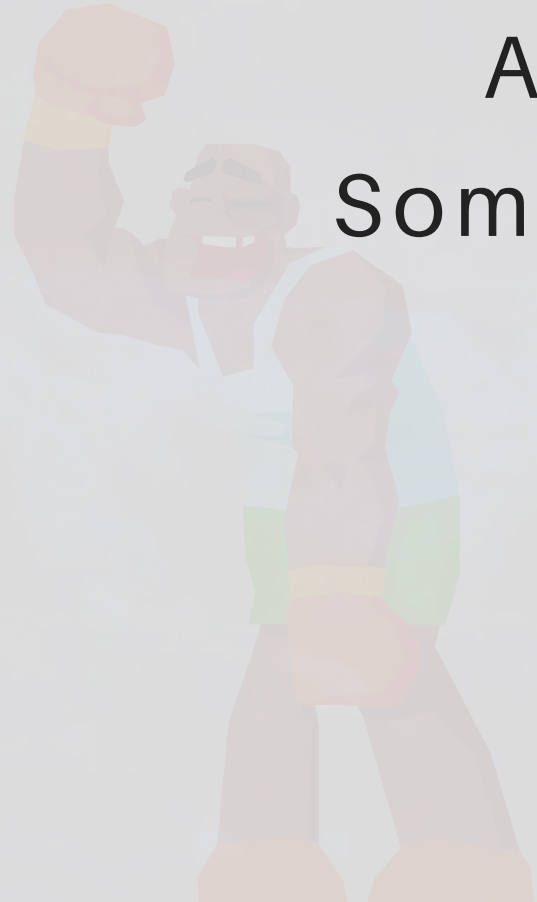

You cling to your fantasy  
The brainwash communal  
You dress in all black  
For I am your funeral

April 2014

Sometimes I sleep.  
Other times I lay awake  
Wondering if there is more  
To life than this suffering.

How do I neutralize my karma?  
What must I do to finally win?  
It is said that happiness is within.  
Within who? Within what?

I search myself. There is not.  
I search the Earth and Heaven.  
There is not a lasting scent.  
No lingering joy for me.

Yet a thing urges me on.  
Ongoing I keep. Moving ever.  
As if someday I shall overcome.  
Somehow, someway I shall overcome.

October

I rose for a walk,  
But found there was no floor

I'm walking through walls  
Even without any doors

I look for your  eyes,  
Into a heart and soul I adore

All the lands are really skies,  
I'm falling forevermore.

October 31st

November

If it wasn't happening to me,  
I wouldn't believe it.

But it's true:

I think about you when I wake up  
Until I go to sleep

And then dream of you some more

Sexy midnight songs  
It's like your singing to me  
Talking on the phone

I ask who you are  
For I don't know who I am  
As I disappear  
Into the oblivion  
Embracing love of nowhere

December

It's like to wake up in the

I earn millions of dollars

And keeping secrets

We walked on the longest night  
Under a new moon

Those who have had it the worst  
Yet have come out the best

Thorazine is not  
Some new periodical  
About a Norse God

October

Sometimes I wish that  
Time-Travel had never been  
Invented this way

No glorious Death.  
I've been in the Heart of War  
Yet have no medals

IT GLITTERS WITH GOLD  
SHE LEAVES HER MARK ON MY FACE  
WITH PURPLE LIPSTICK

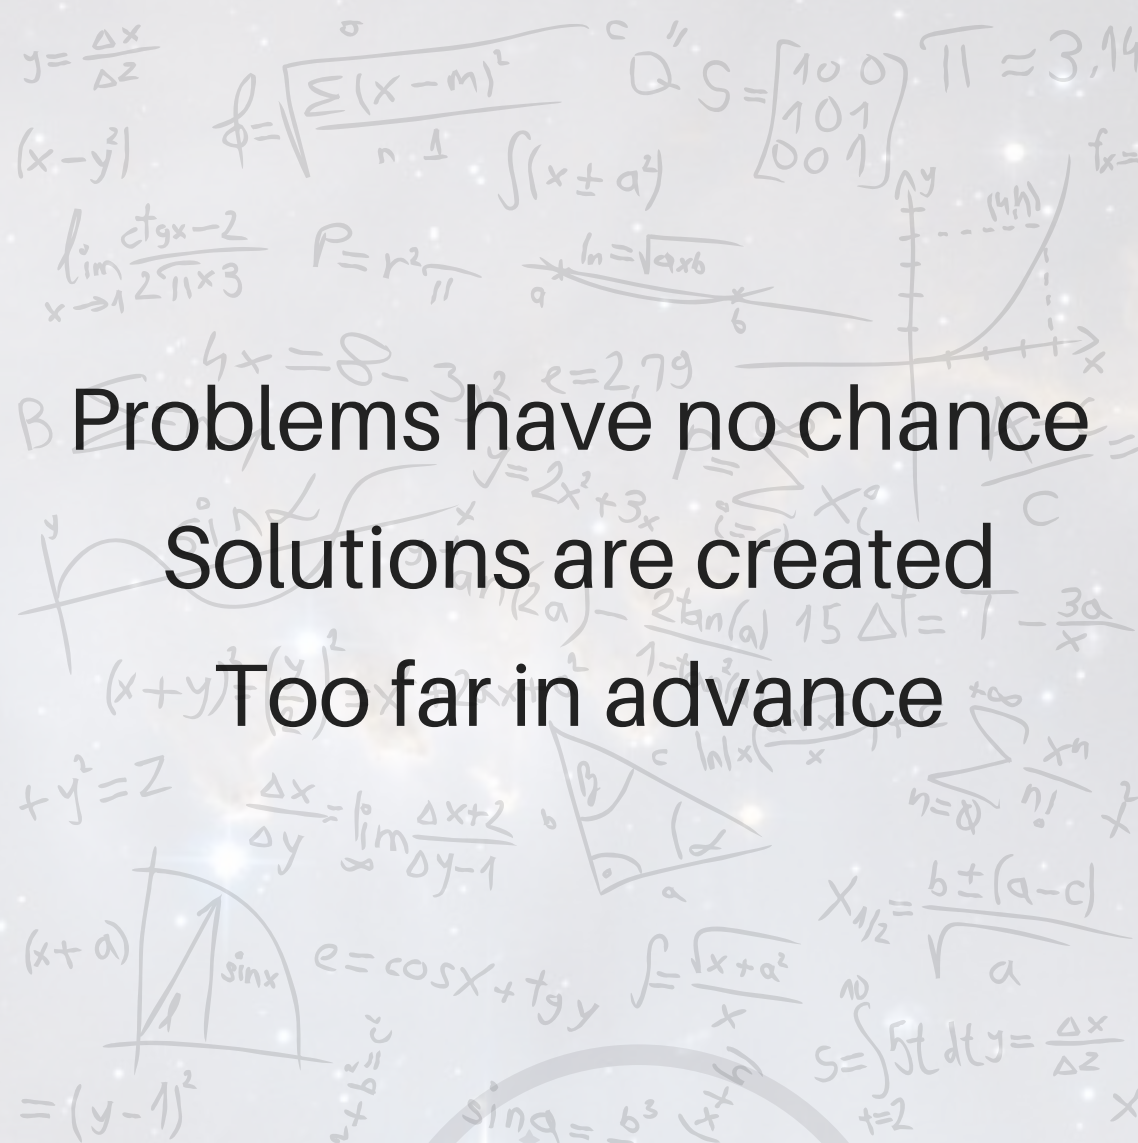

In Death's gentle kin  
Aware while others are not,  
I control visions.

November

Fascinating how  
The simple act of writing  
Poems can divide

December

Problems have no chance  
Solutions are created  
Too far in advance

May 2019

All my life I've been  
Suicidal, but somehow  
I'm still alive

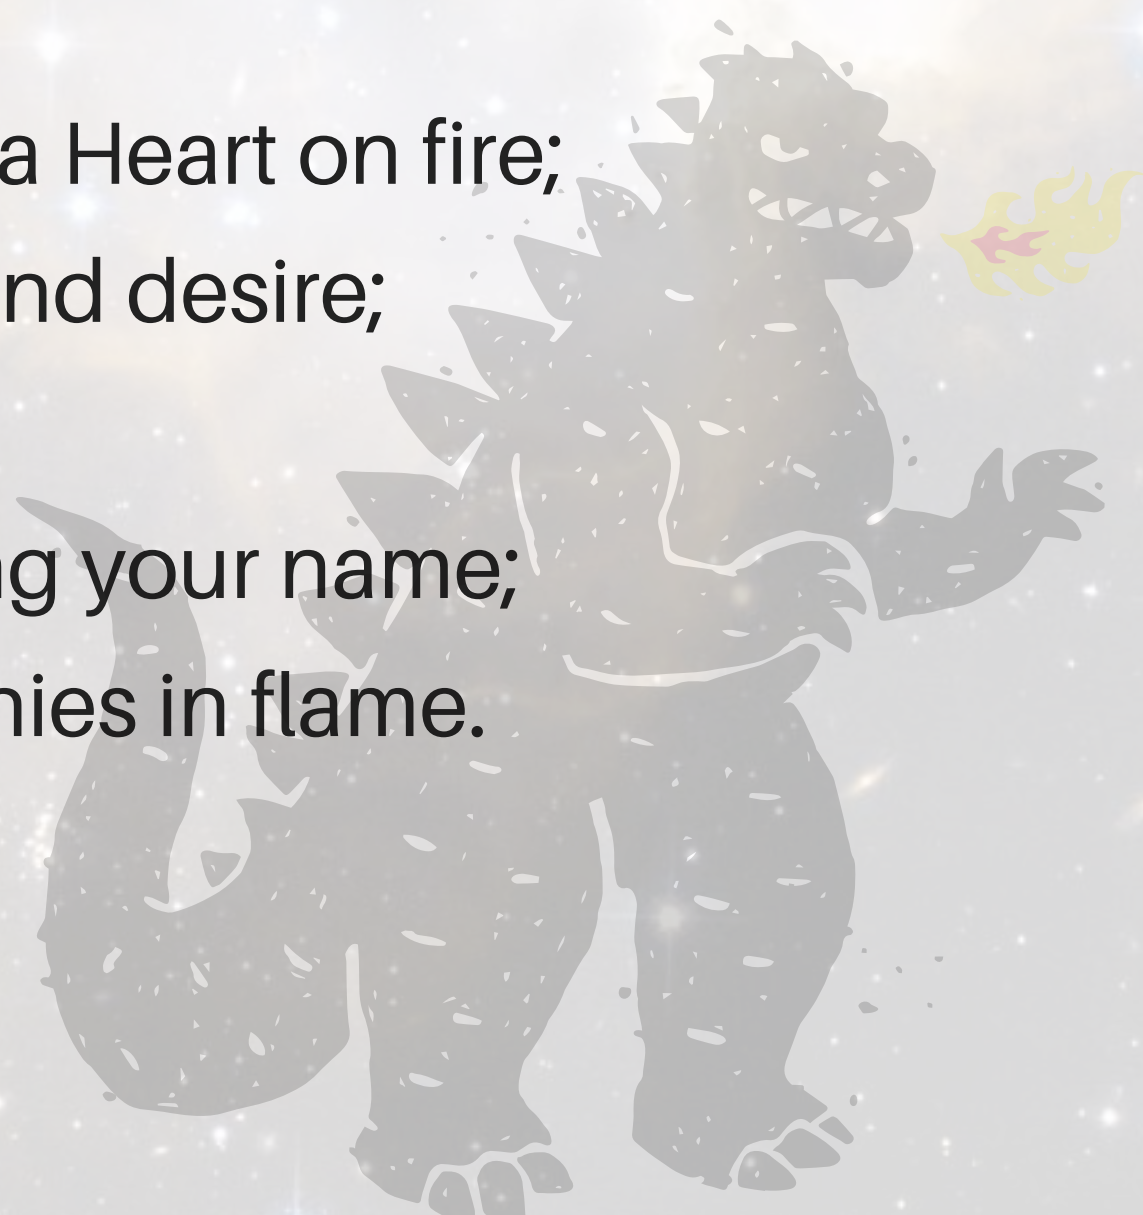

I'm drowning in Love  
Since I let her embrace me  
I fell for the sea

August

I, the Dragon with a Heart on fire;  
Full of Love, and desire;

Part my lips to sing your name;  
Exhaling harmonies in flame.

August

That I've never lied,  
Is the big lie that I hide,  
Now I'm open wide.

September

Conception denied  
Every time bodies collide,  
Nature is defied.  
Ready now, barren inside;  
Karma is my willing bride.

Even at high noon  
All my Sunshine fades away  
As my heart darkens

She's my everything  
Yet I don't know where she is  
So I have nothing

My only hope is  
Compartmentalization  
Of all this heartache

October

Certain explosions  
Left bone fragments in my flesh  
That are not my own

Who loves the darkness?  
Lowered into the casket  
All the drams are dead

Eating her alive  
Cancer burns through her body  
But I also die

At some point in time  
I must awaken from this  
Wine induced stupor

Clean is my burned soul  
Lost in a storm of despair  
Bathing in the rain

Many dream about  
How beautiful Death shall be  
When life is ugly

October

the rape and murder  
of your daughter was avenged  
will you pay me now?

I may be evil  
But I am not the devil  
I will eat demons

I shall protect you.  
Whilst I fell enemy troops,  
Hide behind that tree.

Within my heart is  
The birthplace of the Black Sea  
Wherein you shall drown

November

To celebrate you  
I will plant seeds in your name  
My Angel-Flower

Everything reminds  
Me of her which makes all those  
Things so beautiful

She protected me  
For the first time I'm afraid  
Of what I'll become

I do want to live  
But I want to follow you  
Even more than that

We were going to  
Have a house full of babies  
And all full of love

I guess everything  
Was going too good for me  
Something had to give

November

For what means this end?  
How many lives have I saved"  
Only for the one  
I have cherished the most to  
Be taken away from me.

December

Seppuku disguised  
Ethanol bathed viscera  
Inebriated

swimming so vigorously  
within your endless sea  
i hope you will have me  
when i dive into your eternity

## About The Author

**"Serena Wears Black"** was Hakeem A.B. Alexander's first, self-published chapbook of Haiku and other creative writings in 2005. It was only distributed within a small area of California's Los Angeles Valley called Tarzana, just before he graduated from the Hypnosis Motivation Institute (HMI).

In addition to working with clients as a Clinical Hypnotist, Mr. Alexander practices Yoga, Boxing, and Capoeira. He acts as a singer / songwriter who composes original music, records, and performs on stage.

Not least of all, Hakeem really enjoys reading and writing. Encouraged by the late **Flor Elizabeth Carrasco**, Hakeem and Flor traveled outside of the United States to explore the world of Teaching English as a Second Language in March of 2016.

After earning 4-years of experience, he published a handbook of teaching directives called "*The Dynamic Audio Lingual Method*" (2020.08.17) to share what worked for him while researching abroad.

Hakeem spends most of his time on the Asian continent traveling and creating new projects along the way.

he can be reached by e-mail at [Hakeem@HypnoAthletics.com](mailto:Hakeem@HypnoAthletics.com), or visit his website [www.HakeemAlexander.com](http://www.HakeemAlexander.com).
